

**Technology Experts Appointed to Top Positions at WorldCare Clinical Inc., a Wholly-Owned Subsidiary of e-Health Giant WorldCare Limited  
James E. Sumner and Elliott W. Liu Become the Respective President and COO/CTO of the Leading Accelerator of Clinical Trials**

**CAMBRIDGE, Mass., Feb. 27** /PRNewswire/ -- WorldCare Limited, the leader in global e-health services and solutions, today appointed James E. Sumner as President and Elliott W. Liu as COO/CTO of WorldCare Clinical, Inc., its wholly-owned subsidiary. WorldCare Clinical uses technology developed by its parent company to accelerate clinical trials through the expert capture, interpretation, measurement, and analysis of medical images. The company's solutions enable the delivery of timely and precise clinical evaluations to leading pharmaceutical, biotechnology and medical device companies worldwide,

WorldCare Clinical evaluates medical images with access to specialist radiologists from the prestigious medical centers that comprise The WorldCare Consortium: The Cleveland Clinic Foundation, Duke University Health System, Johns Hopkins Medicine and Partners Healthcare System, Inc., which includes Massachusetts General Hospital and Brigham and Women's Hospital. WorldCare Clinical's technology and access to these renowned hospitals provide WorldCare Clinical's customers with competitive advantages that are fundamental to their success.

"With Sumner and Liu's combined leadership and expertise, WorldCare Clinical will continue to set new standards in the field of clinical trials," said Nasser Menhall, President and CEO of WorldCare Ltd. "Together they will help take the company to the next level of revenue growth and global expansion."

Sumner joined WorldCare Clinical as Executive Vice President in January 2000, and has since managed the company's business development, financial and operational units. His portfolio includes 10 years of Directorial and Managerial positions in Diagnostic, CT, MRI, Nuclear Medicine, Ultrasound and Interventional Radiology, along with Cardiology, Neurology, Respiratory Therapy, Pulmonary Laboratory, Cardiac Rehabilitation and Sleep Disorders. He held leadership positions at diverse institutions including Emerson Hospital, Boston Medical Center, Boston University Medical Center, and Massachusetts General Hospital. Sumner earned a USAF Officer commission after receiving his B.S. in Aerospace Engineering from the University of Arizona. Sumner spent three years as the Chief of the Tactical Modeling Section, Foreign Technology Division, United States Air Force.

"I am honored to take this leadership position at a period in which fast and accurate evaluations of pharmaceutical compounds and devices are more necessary than ever," Sumner said. WorldCare Clinical enables its customers to cut months and sometimes years from the clinical trial process.

Nasser Menhall concurrently appointed Elliott W. Liu as COO/CTO of WorldCare Clinical. Liu brings with him more than 20 years of

diversified experience in management of information systems and technology. He most recently served as Senior Director of Worldwide Information Systems at PAREXEL International Corporation, where he was responsible for corporate program management, global telecommunication planning and architecture design. Liu held Directorial, Vice Presidential, and Managerial positions at New England Business Services, the ITT Sheraton Corporation, the Faxon Company, Baniff Airlines and Trans World Airlines.

About WorldCare Clinical Inc.

WorldCare Clinical specializes in the expert acquisition, interpretation, measurement, and analysis of medical images as a proven strategy for accelerating clinical trials. It combines the talents of specialty radiologists with the services of its dedicated staff to provide innovative solutions utilizing medical images as surrogate endpoints. From protocol design through data delivery, WorldCare Clinical provides timely, precise and consistent evaluations to leading CRO, Pharmaceutical Biotechnology and Medical Device companies worldwide.

About WorldCare Limited

WorldCare Ltd., a pioneer and leader in global e-health services and solutions, facilitates international access to high quality U.S. healthcare through the delivery of highly specialized and personalized electronic second medical opinions and the provision of U.S. treatment plans for serious illness. In partnership with the very best medical centers in North America, WorldCare utilizes Internet-empowered technologies and FDA approved protocols to transmit medical records and provide referring physicians and their patients with second opinions and insured treatment for specified, serious illnesses. Consultation and treatment are rendered by The WorldCare Consortium, consisting of The Cleveland Clinic Foundation, Duke University Health System, Johns Hopkins Medicine and Partners HealthCare System, Inc., which includes Massachusetts General Hospital, and Brigham and Women's Hospital. Special programs sponsored by life and health insurance carriers throughout the world offer WorldCare's second medical opinion services and insurance plans. Founded in 1994 through a joint effort with Massachusetts General Hospital, WorldCare maintains offices in Cambridge, Massachusetts; Paris, France; Kuala Lumpur, Malaysia; Rio de Janeiro, Brazil; Dubai, United Arab Emirates; Caracas, Venezuela; Mexico City, Mexico; Panama City, Panama; Amman, Jordan; and Montevideo, Uruguay.
