Wellpoint Health Services To Offer WorldCare's 2nd Opinion e-Consultation Services for Serious Illness

*WorldCare ConsortiumSM : Duke University Health System & Partners HealthCare System
to Render Expert e-Consultation to Wellpoint Members*

Cambridge, MA November 22, 2005 -- WorldCare Inc., a pioneer and leader in the development and distribution of global health care services and solutions, including specialist and sub-specialist 2nd opinion e-consultation, serious illness treatment plans and clinical trial services, today announced that it signed a contract with Wellpoint Health Services, a Toronto-based Corporate & Family Health Services Company, to provide expert Second Opinion e-Consultation Services for serious illness. These services enable patients to receive specialist input in collaboration with their local attending physician without the expense and anxiety of leaving home.

Such e-consultations will be rendered by some of America's best academic medical centers: Duke University Health System, and Partners HealthCare System which includes Massachusetts General Hospital, Brigham and Women's Hospital and Dana-Farber/Partners CancerCare.

This unique service allows a Wellpoint member who may have developed a serious illness, such as cancer, heart disease, stroke, neuro-degenerative disease or any life-threatening illness to make an informed decision about their treatment options. Utilizing encryption technology, following rigorous quality control and quality assurance protocols, Wellpoint physicians send a patient's medical records, including medical imaging, laboratory reports and history and physical to WorldCare's Hub in Cambridge, Massachusetts, USA. These medical records are then digitized and securely transmitted to

One Cambridge Center, Cambridge, MA 02142 (617) 374-9001 (617) 374-9991 Fax

the appropriate telemedicine centers of a provider institution for specialist and or sub-specialist physician review.

A written second opinion, including a confirmed diagnosis and recommended treatment plan, will be returned to a Wellpoint physician within four working days of the receipt of a complete set of medical records by WorldCare.

“WorldCare is pleased to announce this new contract with Wellpoint because it will enable Wellpoint members to have timely, affordable electronic access to specialists at the best hospitals for the evaluation of serious illness, including the confirmation of a diagnosis and the recommendation of a treatment plan, “ stated Nasser Menhall, CEO, WorldCare Inc. “With today’s encrypted and secure technology, no healthcare consumer should be deprived of timely e-access to high quality healthcare at the time it may be needed most... namely upon the initial diagnosis of a serious illness, “ concluded Menhall.

“Wellpoint is also pleased to announce its agreement with WorldCare as it enables us to provide a truly comprehensive suite of services to our clients, “ stated Sanjeev Sharma, M.D., President & CEO, Wellpoint Health Services. “WorldCare’s service provides our members with seamless e-access to some of America’s best hospitals should our screening reveal the existence of a serious or complex disease,” continued Sharma. “Today because of advances in information technology, none of our clients need to wait to secure an expert second opinion. Such timely intervention, offered through this partnership, will contribute to increasing optimal health care decision making and improving health care outcomes should serious illness occur”.

About Wellpoint Health Services www.wellpointhealthservices.com

Wellpoint Health Services, Canada’s leading edge corporate and family health services company, provides comprehensive medical screening and preventative healthcare. Wellpoint offers customized health and wellness programs empowering individuals to take a proactive approach to their health. Through multi-disciplinary clinical teams, Wellpoint tailors health programs to individual needs. Wellpoint’s extensive diagnostic resources provide opportunities for their members for early detection of serious illnesses.
